

LGBTQ Market Research:

There is a difference!

LGBTQ research is meant to help marketers understand the LGBTQ community and make educated decisions about strategies and tactics to reach them.

Community Marketing & Insights (CMI) leverages our own proprietary panel to generate the valid, community-representative data that our clients depend on. As an LGBTQ-founded, owned and operated company, we understand the LGBTQ community's unique life experience. And because we have been serving clients for over two decades and have conducted over 300 LGBTQ-specific research projects, we have the professional experience needed to deliver actionable results and recommendations.

CMI'S PROPRIETARY PANEL

Community Marketing & Insights (CMI) has recruited for our proprietary research panel over the past 30+ years by partnering with over 300 LGBTQ media, organizations, events, social media and influencers throughout the USA, Canada, the UK, Germany, Australia, China and beyond. The panel is highly representative of LGBTQ consumers who interact with LGBTQ community organizations and media. Our panelists come from diverse sources, allowing for broad LGBTQ research projects or targeted segments within LGBTQ.

CMI research is trusted by—and frequently quoted in—*New York Times*, *USA Today*, *Wall Street Journal*, *Forbes*, *Newsweek*, *U.S. News & World Report*, *Los Angeles Times*, *Chicago Tribune*, *Miami Herald*, *Ad Week*, *Christian Science Monitor*, NPR, CBS News, CNN, eMarketer, Mashable, Reuters, Associated Press and many others. CMI's research is considered the definitive resource for insights into the LGBTQ community.

LGBTQ PANEL DIVERSITY IS IMPERATIVE, BECAUSE THERE IS NO "LGBTQ MARKET"

Community Marketing & Insights emphasizes that there is no "LGBTQ market," just as there is no single "Asian market." The LGBTQ communities represent a broad and dynamic spectrum of interests, sensitivities, preferences and priorities. Add to that variations in geographical location, age, income, education, relationship status, gender identity and more, and it becomes essential to discover which opportunities within LGBTQ will help you achieve your goals. Fine-tuning your approaches based on highly refined, well-targeted matches within LGBTQ will make your outreach initiatives more efficient and cost-effective, optimizing your marketing investment.

Note: General market surveys that may include a very small subset of "LGBT responses" just scratch the surface of the diverse and varied of opportunities marketers can enjoy if properly explored and understood.

CMI'S INDUSTRY-STANDARD QUANTITATIVE SURVEYS

CMI has conducted hundreds of LGBTQ-dedicated quantitative surveys since the early 1990s, covering a wide variety of topics, industries and interests. Through these studies, we both observe and influence the trends of this market. Size does matter when it comes to surveys. Our panel has grown to 50,000 qualified and active LGBTQ consumers—the largest of its kind, by far. Our Annual LGBTQ Community Survey® study (now in our 14th year) has attracted up to 45,000 survey participants representing 150 countries, making it the largest such study in the world. We leverage our long history, experience and expertise to guide you, fine-tuning our portfolio of research panels, methodologies and approaches to best match your market intelligence goals.

Note: Without access to this enormous resource of qualified LGBTQ consumer panelists, other companies have to compromise on the quality and demographic representation of their panel—or "reinvent the wheel" at your expense. It's not possible to fathom the diversity and complexities within LGBTQ (see below) through a small sample. CMI fields surveys of 1,000+ responses. You might see some research with small samples, but they miss the opportunity to derive statistically-significant crosstabs based on gender, geographical location, age, income, experience, product choice, etc. Can you really make an assumption that a Millennial lesbian techie couple in Seattle has the same purchasing motivations and behaviors as a 67-year-old gay retiree in Miami? Generalities and sweeping statements about "the LGBTQ market" based on comparatively small samples can distort the validity of research findings, wasting your investment of time and resources.

GAIN A DEEPER UNDERSTANDING OF THE LGBTQ COMMUNITY: QUALITATIVE RESEARCH

For over two decades, CMI has produced the most consistent, longest-running series of LGBTQ community surveys in the world. But we don't stop there. Quantitative (data) research is important, but it's just one side of the coin. Our range of research services uncover the rest of the story through qualitative research, most notably derived from focus groups and in-depth Interviews (IDI), modified and updated for virtual production.

We pre-qualify our focus group participants from among our survey panelists, identifying the best candidates based on characteristics such as age, gender, relationship status, geographical location, and even a propensity or history of using the client's products or services. We maintain sufficient numbers of panelists to conduct groups in most major metro areas across the USA and Canada. Sometimes the same creative, tested in different regions, may yield different perspectives. Isn't it wise to know that—and adjust your plans—before investing in marketing campaigns?

CMI is the only LGBTQ-dedicated research provider that produces and facilitates qualitative research, including focus group studies (both in-person and online), in-depth interviews, online communities and advisory boards, which can round out a comprehensive market intelligence plan.

Note: By producing online surveys only, other research companies are telling only half of the story...at best. Without actual consumer interaction, they cannot fathom the deeper insights hiding behind the bar graphs and pie charts. Nor can they adequately advise you on the sensitivities and complexities that can only be uncovered by qualitative research—extremely important considerations that averages and assumptions extrapolated from survey statistics are likely to miss.

IN-HOUSE EVERYTHING. WE DON'T OUTSOURCE!

Community Marketing & Insights maintains our own research panels and utilizes advanced research software. We conduct all of our research in-house, because nobody knows this market segment as well as we do.

Note: Unlike many other firms, CMI will never sell or represent another research company's services. Nor will we outsource your projects and report on the results of a third party's work. Without being intimately involved in every aspect of a project—discussing client goals, designing the study, building and implementing the survey, and engaging directly with consumers in qualitative exploration—it is difficult to gain the insights that we regularly deliver. CMI's hands-on LGBTQ research specialization spanning over two decades is unmatched.

VALUE FOR THE INVESTMENT

You might think that with this kind of specialization and experience, you'd have to invest considerably more for Community Marketing & Insights services than for research from other companies. With our specific focus on LGBTQ market intelligence, however, and the cumulative 60+ years of LGBTQ-dedicated experience among the CMI team, we're able to keep your costs within budget. We don't spend your money locating qualified survey or focus group participants, and we won't waste time trying to source comparative data or case studies. We've already done all that, for your benefit, over the past 25+ years.

Note: At CMI, we're not running a large operation juggling many accounts and projects with varied focus. Our client dedication and LGBTQ market specialization delivers superior intelligence at a fraction of the cost.

WE ARE TRUSTED. WHY THIS IS IMPORTANT:

Community Marketing, Inc., founded in 1992, pioneered LGBTQ consumer research. Because our company is LGBTQ-owned and -operated, and well known in the community, we have earned the recognition and trust of our survey panelists. LGBTQ consumers recognize that we use research data to build corporate relationships that ultimately lead to social progress, better conditions for LGBTQ employees, and more sensitive communications.

One of the questions in HRC's Corporate Equality Index application is whether the applicant company includes LGBTQ-owned suppliers when procuring products and services. When you contract with Community Marketing & Insights, you not only gain the benefit of our long-standing leadership in this field, you are working with one of the world's only LGBTQ-owned market research providers. LGBTQ, Inc. is an NGLCC Certified LGBT-Owned Business Enterprise.

CMI is involved in the LGBTQ community: We volunteer time, donate resources and raise funds for numerous community-based organizations. We also participate in leading business and advocacy organizations, events and conferences within the community, such as Out & Equal, HRC, National LGBT Chamber of Commerce, GLAAD, NCLR and the International Gay & Lesbian Travel Association. Our community connection is not only the right thing to do, it is essential for maintaining authentic community relationships to benefit our clients.

CMI Community Marketing & Insights

Leaders in LGBTQ Research since 1992

LGBTQ Research Panel
